

MEDIATOR AND ATTORNEY

Leslie Shafer has thousands of hours practicing negotiation and facilitation of settlement through mediations, courtroom experience, and client engagement in various areas of law including, criminal, domestic and neighborhood disputes. After years experiencing the communication breakdowns that occur in mediation, and the lost opportunities to save funds and facilitate settlement, she decided to apply her experience to the practice of mediation – helping others to reach settlement in a cost-effective manner.

Leslie has a great passion for negotiation and resolution and applies her education and training in the areas of neurodivergence, domestic violence, family development, inter-communicational skills, and trauma on a regular basis within mediation.
